Revolution The

Making of ...

Industrial Revolution, in modern history, the process of change from an agrarian and handicraft economy to one dominated by industry and machine manufacturing. The process began in Britain in the 18th century and from there spread to other parts of the world, driving changes in energy use, socioeconomics, and culture.

File Type PDF Britains Industrial Revolution The

The Industrial Revolution began in England in the middle of the 18th century and spread to the rest of Europe and the United States in the early 19th century. This era changed the way people worked and lived. New machines were invented and a large part of the population moved from the countryside to urban areas.
